

Navigating the Module

This case will take you through a possible real-life scenario. Use the [Next >](#) and [< Back](#) links at the lower left and right of each page to move forward and backward through the course. Each section of the case is followed by a series of questions similar to the example below:

What are some key developmental milestones for ages 6 months to 4 years?

Clicking on the question will present the answer. Some questions have multiple tabs; please be sure to click them all.

6 Months12 Months18 Months24 Months36 Months48 Months

Basic Developmental Milestones: 6 Months

- Respond to own name
- Respond to other people's emotions and often seem happy
- Copy sounds
- Like to play with others, especially parents

All children develop at their own pace, and many reach particular milestones slightly late or early.

*Please be sure to tab through all content.

 [Milestone Checklist: 6 Months](#)

Be on the lookout for  videos that show key content and  materials you can download and use in practice.

After you read through all the questions and answers, a button will appear on the bottom of the screen to take a practice test. Once you complete the practice test, you will be taken on to the next section of the case.

Following completion of the entire module, you will be given a link directing you to the CDC Training and Continuing Education Online website to secure CE credit.

At any time during the module, you can use the [Course Information](#) drop down menu on the top right corner to find information about the course, navigating the module and continuing education credit. You will not exit the module by clicking on these links.
